NUMBER 169

Industrial Situation Becomes More Desperate As Efforts Looking To Settlement Fail

Operators Making Preparations In Some Sections To Attempt Opening Of Mines, While Others Decide To Await Developments—Ask Both Military And State Police Protection.

HARD COAL MAYORS MAY HAVE PLAN

Washington, D. C., July 20.—Suggestions for a settlement of the Anthracite coal strike may be framed at a conference of mayors from several of the cities in the Pennsylvania hard coal field. Officials of Scranton and Wilkes-Barre are here. It is understood a meeting will be held this afternoon and if a plan of action can be agreed upon it will be submitted to President Harding. The mayors taking part in the conference here are Durkin, of Scranton; Hart, of Wilkes-Barre; Brown, of Pittston, and Harvey, of Hazelton.

Harrisburg, July 19.—Conditions in the bituminous coal fields and plans for the opening of the mines in compliance with the request of President Harding to the governors of coal producing states were discussed today at a conference between Governor Sproul and representatives of Western Pennsylvania operators.

The operators hope to open some mines early next week and were insistent that state police and National Guard protection be given them. The governor is not ready to furnish troop protection, as he thinks the better element in the mining districts looks upon the shortage of coal as a menace and respects the request of President Harding that the resumption of mining be started at once and the trouble arbitrated.

It is likely that the opening of the mines will be by gradual operation and the state police will be detailed in the vicinity of pending operations, ready for trouble.

Michigan Governor is Ready to Act Lansing, Mich., July 20.—The state is ready to open and operate all mines within its borders, Governor Alex J. Groesbeck wired President Harding today. The Governor announced that Federal co-operation was all he needed to start the production of coal at the rate of 100 cars a day in and around Saginaw.

Washington, D. C., July 19.—While government interest in the industrial situation continued to be centered today chiefly in the coal strike and particularly in the reaction from President Harding's invitation to governors of coal producing states to co-operate with him in the effort to reopen the mines, evidence was not lacking that the coal and railroad strikes were co-related at least in effect.

Unofficial reports received here brought further details of reduction in coal output because of inadequate car supply, with the result, it was said, that production was tending to become more than ever confined to non-union fields. Effects of reduced movement of coal cars was said to be particularly marked in West Virginia districts.

Two Governors Dissent
With but two exceptions, the governors who replied to President Harding's telegram today, pledged their cooperation and support to the Federal administration without qualification. Governor Morrison of North Carolina replied in a decided negative, asserting that so far as he knew there were no strike troubles in the mining industry of that state and it would be a "vain thing" for him to "invite" miners to return to work.

"I would not do so anyway," Governor Morrison was quoted as saying. Governor Trinkle of Virginia, in his reply, called attention to the small amount of coal produced in that state.

John L. Lewis, president of the United Mine Workers of America, maintained his cheerful attitude toward the situation, declaring that after 16 weeks of strike the tasks of the men who had quit work was being constantly augmented.

Compers Propheesies Reaction
Washington, D. C., July 20.—A powerful reaction will come against

the Government's policy of repression by "force and military dictatorship in the coal strike, president Samuel Compers, of the American Federation of Labor warned today. The veteran labor leader directed a bitter attack against the old guard leaders.

Harrisburg, Pa., July 20.—Conferences were being held here today to determine upon the scope of the protection of the State for the resumption of mining operations in the western Bituminous field. Governor Sproul was believed to have planned to use several cavalry units of the National Guard to protect mining operations. Meanwhile the Guard is under orders to proceed to Mount Gretna for its regular summer training and encampment. None of these orders have as yet been countermanded. In conferences with operators State Police and county officials, Governor Sproul has made a thorough study of the means of protection in the Bituminous field where operators plan to resume operations next week.

Raising Sines Of War
Wilkes-Barre, Pa., July 20.—Engineers, firemen, pump runners and other maintenance men permitted to remain at work in the mines must pay a double assessment to the strike fund established to assist the striking miners, it was learned today. Maintenance men instead of being assessed one day's pay will be assessed two days' pay. The double assessment will net the union \$40,000 a month. The order is to be effective as of July 1st and circular letters are now being sent to the maintenance men by the scale committee.

Washington, D. C., July 20.—A coal shortage this winter is inescapable even if coal production could be resumed at once at full capacity. Attorney General Daugherty declared today. Other officials indicated that a coal rationing system will have to be put into effect when cold weather comes and the priority orders will have to be issued to the railroads to protect such communities as New England and the Northwest where the shortage is expected to be acute. Daugherty said he hoped the use of Federal troops will not be necessary to maintain order. There is no disposition on the part of the Government, he said, to interfere with the legitimate performances of labor unions, but he warned them that the Government and the laws are paramount.

Chicago, Ill., July 20.—The industrial situation due to the coal strike hourly grew more critical in the middle west today, with scores of plants threatened with complete shut down unless speedy relief is forthcoming. Hundreds of men were being laid off as industries were being put on part time basis. The Illinois Coal Producers Association announced they would be unable to reopen their mines under President Harding's plan, on account of Illinois State laws which provide that the mines shall be operated on a closed shop basis. Reports were received here that the output from non-union mines was decreasing. This was largely due to the inability to get cars with which to haul coal.

All Efforts To Bring About Settlement Of Rail Strike Fails And Labor Board Again Throws Up Its Hand.—Seniority Rights Is The Rock Upon Which Negotiations Split This Time.

TRAIN SERVICE IS BADLY DEMORALIZED

Washington, D. C., July 20.—Legal action will probably be one of the government's next moves to end the menace of the nation-wide mine and rail strikes. Department of Justice officials are examining a mass of reports from all over the country to determine whether or not the government can prosecute the principals. One angle now under investigation is whether any agreement exists between the striking miners and the railroad shippers. Charges that the two groups are working together to prevent the movement of coal have been received at the Department. Should these charges be substantiated it is held the government could act against the strike leaders charging a conspiracy to restrain interstate commerce.

Chicago, Ill., July 20.—Railroad strikers and the carriers dug in for a finish fight today as the United States Rail Labor Board announced it would make no further efforts to bring peace. Ben Hooper, Chairman of the Board, stated that all attempts by the Board to bring about arbitration of the strike had failed and that all negotiations have been ended. There is no prospect of settlement said Hooper, who has worked day and night since the strike started to bring peace. The stumbling block is the insistence of the strikers that they be restored to their full seniority rights in the event of their returning to work. The carriers, the Chairman said, refused to assent to this.

Washington, D. C., July 20.—Further drastic curtailment of railway service all over the country was announced by the Post Office Department. Sixteen trains on the Northern Pacific, in Washington, has been discontinued within the last twenty-four hours. Three trains on the Norfolk & Southern, in North Carolina, were taken off today, while the fuel supply of the Wabash Railroad in Missouri is only sufficient for twenty days, it was announced. Serious delay in transportation between Daleon and Cross Plains, Texas, was caused by United States Marshals refusing to protect strike breakers on the M. & T. T., it was charged by General Manager Whittenton in a message to the Department.

Chicago, July 19.—Failure of all efforts to bring about the settlement of the country wide strike of the railway shippers was announced in a statement issued tonight by Ben W. Hooper, chairman of the United States railroad labor board.

"As there does not seem to be any probability of reconciling the antipodal views of the carriers and the men on the question at issue, the labor board and none of its members are now engaged in any further efforts along that line," the statement said.

At the same time the statement pointed out that virtual agreement had been reached between the rail heads and the strike leaders on all of the five points in dispute except that of the return to the strikers of their seniority rights—a question which was not originally in dispute between the roads and their men.

Statement Issued
Railroad executives, through the Western president's committee on public relations of the Association of Railway Executives, issued a statement tonight corroborating Chairman Hooper's statement that no further peace conferences were being held and that the seniority issue was the principal stumbling block.

"There are now no conferences in progress looking to a settlement of the shop crafts' strike," the executive statement said. "Chairman Hooper of the labor board has held informal conferences with some railway executives, but these have had no

ITHACA, N. Y., MAN MURDERS HIS WIFE THEN SUICIDES

According To Authorities Who Find Bodies Of H. M. Sherar and Wife In Creek.

CHILD A WITNESS

Williamsport, Pa., July 20.—The bodies of the man and woman found in Lyeom Creek with their throats cut, near Rodines, today were identified as Mr. and Mrs. Harry M. Sherar of Ithaca, N. Y. The couple with their three year old child left Ithaca on a vacation trip to visit Mr. Sherar's parents at Harrisburg. The bodies were discovered by a passing motorist who noticed the standing car containing a little girl crying "mamma." He stopped and found the bodies in the creek with their throats cut. No evidence has been found to indicate the cause of the deaths. Authorities today investigated the case and advanced the theory that the man murdered his wife in the water and then committed suicide. They said robbery was not the motive for the crime, as both the man and woman had money in their possession. Mr. Sherar had a gold watch which was not taken.

BOB LEAVY'S TENDER HEART CAUSES HIM TO WANDER ALONE

**Saves Poling Cat's Life
When Harvot Hands
Would Slay It & Scent
of Deed With Him Yet.**

SKUNK LOWLY BUT,

Some people say that the skunk is the most inoffensive of all the animals which infest our hills and dales, but if you cross him in any way—oh my!

The folks living up around Fred Leavy's barn, back of the steam house agree with part of our opening observation. Yesterday while Leavy's harvest crew were cutting hay on Fred's meadow in Lawrence township they ran onto a family of half grown skunks. "Three were killed" before Bob Leavy arrived and tender heartedly interceded for the last "perfume dispenser" and saved his life. One of the executioners picked the pretty little animal up by the tail and dropping him into a chop sack, tied the same under the hay rigging and when Bob drove to the barn and unloaded his wagon he found he had a real live skunk on his hands.

Now that is some problem. Did it ever happen to you? If it didn't you wouldn't know what to do with it that's what was wrong with Bob. Like the Irishman who caught the wildcat, he needed a lot of help to let go. Feleagat, Bob Mitchell and several other spectators attracted to the scene, offered advice from a safe distance as to how to dispose of the monster. Bob finally tried shaking the little animal out of the bag. It worked—so did the pole cat. Bob is holding himself aloof from society for a few days. The "pole Kitty" survived the ordeal and promptly skated under the barn.

TEA WAGON DRIVER KILLED BY TRAIN

Altoona, Pa., July 20.—A truck of the Grand Union Tea Company was struck by an express train of the Pennsylvania Railroad near McEvytown early this morning and the driver, William Wagner, aged 52, of Lewistown, instantly killed. Wagner's brother who was with him jumped from the truck just before it was struck and escaped injury.

Miss Ethel Shaw is visiting Mrs. Ardyth Beish who is visiting her uncle in Tyrone.

DESTRUCTIVE AFTERNOON FIRE RAVAGES L. W. POLLACK BUILDING ON MARKET ST.; PROPERTY LOSS AMOUNTS TO THOUSANDS

Fire Discovered About 1 O'Clock Guts Clothing Store; Water Damages Drug Store.

BOY DROPS MATCH

The clothing store of L. W. Pollack, located in the old Norris boarding house on Market street, was gutted and the entire contents ruined by a fire which broke out a few minutes before 1 o'clock this afternoon.

The drug store of Woodward & McPherson, with its stock, located in an adjoining room in the same building was also badly damaged by fire smoke and water, before Clearfield's matchless volunteer firefighters got the flames under control.

On account of the Thursday afternoon closing Mr. Pollack and his clerk had left the store shortly after 12 o'clock to go to the West Side restaurant for a noon day lunch, leaving Mrs. Pollack and her children in the living rooms over the store.

A few minutes before 1 o'clock the fire was discovered by Francis Snavely who was visiting his brother Russell Snavely, who lives in one of the flats over the Pollack store. He is quoted as having said the fire was started when a little three or four year old son of the Pollacks lit a cigarette and threw the match down in the rear of the Pollack apartments. He at once gave the alarm but the flames spread so rapidly the old frame building was burning fiercely with huge volumes of smoke pouring through the store when the firemen arrived.

The firemen prevented the flames from breaking through the roof by the interior of the clothing store was pretty well gutted, while the smoke and water added largely to the damage and loss.

Tenants Suffer Heavy Losses

In addition to the living quarters of the Pollack family there were two flats above the store and drug store. These were occupied by Russell Snavely and Lynn G. Brenneman. The fire and smoke, spread so rapidly there was little chance to get anything of value out of these flats and the loss of both families was heavy. Mr. Brenneman and his wife had just gone to housekeeping newly furnishing their flat last week.

No estimate of losses has been made thus far.

HORSE SHOE CHAMP PUTS CLEANER ON WEST SIDE EXPERTS

**Lloyd Johnson, Former
Goodyear Rubber Co.
Champ, Pitches Rings
Around Local Hopes.**

Last night the Clearfield Horse Shoe men met the enemy from out of town—and a noble foe at that. The challenger was Lloyd Johnson, now of Granpian but formerly champion of The Goodrich Rubber Co., of Cleveland. He was met on the West Pine Street Court by Jay and Withrow of West Side fame—the scores as follows:

Johnson Single Ringers	42
Jay Single Ringers	10
Johnson Double Ringers	4
Jay Double Ringers	0
Johnson Total Score	150
Jay Total Score	62
Withrow Total Score	20
Johnson Total Score	50

(4 Double Ringers)
The visitor certainly is a wizard with the shoes, handling them with a skill and cleverness that is very pretty to see, and a real wonder in "these parts". We don't want to be poor sports but if we must be beaten it is a pleasure to know that the defeat comes from a man who was four years beating the national champion and did it.

COL. MAX KUHN IS NOW ON THE WING; KEEP SHADY, FIDO

Boro Authorities, In Response To Many Complaints, Take Step To Enforce Dog Law.

HAVE 'POUND' OPEN

Col. Max Kuhn, Western Pennsylvania's premier "dog catcher" is now at work as official canine pursuer of Clearfield. The Borough authorities had a "pound" built in the rear of the lockup and Col. Max has orders to first capture all dogs running at large then convey them to the pound where they will be held for the requisite time and then if unclaimed the poor unowned doggie will be sent into dog heaven on his or low, as the case may be, with Col. Max's six cylinders.

The Col. has orders from Burgess Kittelberger to do no executing on the public highways, hence the failure to hear his trusty "six-gun" barking death and destruction to local dogdom.

The Burgess was besieged with so many complaints regarding the running at large of worthless dogs that he had to take steps to abate this complained of nuisance in self defense, so to speak.

If the people who have been complaining will now co-operate with Max the community will soon be ridden of its undesirable canine population.

The present State dog law requires all dog owners not only to pay a license for his dog but he must keep that dog secured upon his own premises. If he allows him to run at large even tho he has a license tag on the dog, the owner is violating the law and is subject to arrest and fine.

If you own a dog you should think enough of him to pay the necessary tax upon him and then take care of him. Don't let him run at large—there are a lot of people here who don't like dogs at any time—they are asking that the dog laws be enforced. Burgess Kittelberger has nothing else to do but order its enforcement. Hence Col. Max is "on the wing," look out for him, Fido.

MAHAFFEY CAMP MEETING JULY 21TH TO 30TH

A convention and campmeeting of the Easter District of the Christian and Missionary Alliance will be held at Mahaffey, beginning tomorrow and continuing until Sunday, July 30th.

The meeting will be in charge of Rev. G. V. Brown, District Superintendent, assisted by Rev. S. W. McGarvey.

Among the speakers during the ten days will be Rev. L. B. Campton, Asheville, N. C.; Dr. W. M. Turnhill, Nyack, N. Y.; Rev. W. T. MacArthur, of New York; Rev. J. D. Williams, St Paul, Minn.; Mr. Chas. B. Doule, Providence, R. I.; "Uncle Charlie," and D. Williams.

Rev. Frank Wrye, of Irvons, will have charge of the music, assisted by Prof. Cedarholm, while Mr. Virgil Reniart, of Taylor University, will reside at the piano.

The children's meeting, held daily in the large tent at 1:30 p. m. will be one of the most interesting of the convention. "Uncle Charlie" Donle will have charge again this year and will use a number of original objects lessons. He will be assisted by "Aunt Sadie" and Prof. Cedarholm.

Improvements have been made on the Camp Ground which will greatly add to the comfort and convenience of our Convention family. These improvements consist of a large addition to the tail-race and to the dining hall the erection of 7 new cottages and the installation of electric lights through the entire grounds.

Notice is hereby given that the Fifth and Final Account of William I. Swoope, guardian of the Estate of Thomas C. Burton, lunatic, has been filed in the office of the Prothonotary and will be presented to the Court for confirmation Monday September 4th, 1922, if no exceptions are filed, same will be confirmed absolute.
Certified from the record this 5th day of July, A. D. 1922.

GEO. W. RALSTON
Prothonotary.

NOTICE TO CONTRACTORS

Sealed proposals giving lump sum price accompanied by receipt for certified check in the sum of One Thousand Dollars (\$1000.00) will be received by the Board of Commissioners of Public Grounds and Buildings at the office of the Superintendent, Capitol Building, Harrisburg, Pa., until 12 o'clock noon, Tuesday, August 8th, 1922, for the reconstruction complete and repairs to the abutments and piers, and the necessary work in connection with the approaches, of a bridge over the West Branch of the Susquehanna River near Mowrie of the New York Central Railroad (River Division) known as the Rolling Stone Bridge, between the Townships of Covington and Cooper in Clearfield County, Penna.

Parties desiring copies of drawing can obtain same by depositing Ten Dollars (\$10.00) which will be refunded upon return of the plans and specifications in good order.

Proposals must be made out upon blanks furnished by the Common wealth of Pennsylvania. All blanks must be properly filled in and no change in phraseology shall be made.

Bidders must make satisfactory arrangements for the materials they propose to use, to be delivered uninterruptedly in such quantities as to complete the work within the term of the contract. Delay in receiving materials for the work will not be accepted as a reasonable excuse for non-completion of the contract according to the terms thereof.

The Board of Commissioners of Public Grounds and Buildings reserve the right to reject any and all bids.

The words "PROPOSAL ROLLING STONE BRIDGE" must be plainly marked on the outside cover of all proposals.

The State Treasurer's Department of the Commonwealth of Pennsylvania will furnish receipt to be enclosed with the bids for all check deposited with the State Treasurer for such purpose prior to ten o'clock A. M. Tuesday, August 8th, 1922.

By order of the Board of Commissioners of Public Grounds and Buildings of the Commonwealth of Pennsylvania.

T. W. TEMPLETON,
Superintendent
SAMUEL B. RAMBO,
Secretary to Board.

Working Toward an Object.

Did you ever hear of a man who had striven all his life faithfully and singly toward an object and in no measure obtained it? If a man constantly aspires, is he not elevated? Did ever man try heroism, magnanimity, truth, sincerity, and find that there was no advantage in them, that it was a vain endeavor?—Henry D. Thoreau.

These scientific guys are continually getting a fellow all tangled up. Just listen to this guy warble:

"A rain storm dries the air, more goes up than comes down; as the sun sets the air grows warmer; the hotter the sun the colder the earth becomes; The sun rises before it is up and sets before it is down.

These statements sound like a fairy tale, but they are all true. Dr. W. J. Humphreys, quoted in the annual report of the Smithsonian Institution which has just been made public, explains all of them. They are well known to scientists if not to laymen.

As everyone knows, Dr. Humphreys remarks, water evaporates and is taken up in the air as vapor. This action is continuous all over the earth and the atmosphere would become very soggy if not dried out. Rain is the condensation, or collection and precipitation of these moisture particles; consequently the more it rains the less water there is left in the atmosphere, or the dryer the air becomes.

The second of Dr. Humphreys' paradoxes seems flatly to contradict the old saying "whatever goes up must come down". However, as the writer expresses it, vertical circulation in the atmosphere is only gravitational action, consisting in the sinking of relatively cold and therefore dense air, and rising of warm and light air. Contracted air descends, expanded air ascends. Therefore, mass for mass, the volume of ascending air is always larger than that descending.

In terms of mass, also, Dr. Humphreys says, descending air is less than ascending, for air while raising contains immense quantities of water in suspension, which does not return to the earth with that air, but as rain hail or snow. The air that rises from the land surfaces is greater by at least 20,000,000 tons per second, the measure of world precipitation, than that which ascends, he says.

The third paradox is merely a way of stating that the warmest part of day is not at noon, when the sun is at meridian or overhead and seemingly should be pouring down greatest heat, but later in the afternoon. This is because the surface of the earth and the lower layers of the air continue to absorb more heat from the upper layers for some time after the latter have been receiving the maximum amount of heat radiation from the sun.

While it is not yet universally conceded that the next puzzler "the hotter the sun, the colder the earth" really is true, Dr. Humphreys states the evidence in favor of it is already very strong. There are several explanations offered. The first is that increased radiation from the sun causes earth's air currents to flow more rapidly, bringing down a greater amount of cool air from high latitudes to lower. He rejects this explanation, however.

LEGAL NOTICE

Notice is hereby given that on July 11, 1922, Peter McDermott of Hawk Run, Clearfield County, Pennsylvania, presented his petition to the Court of Common Pleas of Clearfield County, to be discharged as an insolvent, and that said Court granted a rule thereon returnable on the first day of August, A. D. 1922, at 10:30 o'clock A. M. at which time said petition will be heard and passed upon by said Court, and at which time all persons interested may be fully heard.

The Women's Vote Will Play a Greater Part In National Elections

By MRS. PETER OLESEN, Dem. Candidate for U. S. Senate.

The Indiana and Pennsylvania primary election results are typical of what will probably happen west of these states.

In my campaigning thus far in Minnesota I have been astonished by the prairie fire spread of independent political thought. It is not a matter of parties. Party lines are falling away. People out here are less tied to party strings than they have been at any time in the last twenty years. They pride themselves on reading both sides of a question and framing their own conclusions. They are independent in their judgments. Today not only in Indiana and Pennsylvania voters want a change. Anything for a change, they say. How often have I heard this in my trips throughout the state. I have found widespread dissatisfaction with the present congress everywhere.

In the elections in Minnesota this fall I believe many voters will forget parties and vote independently for the candidates they think will honestly represent the common interests of the great majority.

The amazement of the country at the way women are using their franchise will grow. The women's vote is going to play a greater part in the selection of governmental representatives with the passing of every year.

The women found the vote a new thing two years ago. They were probably, in most cases, governed by the advice of men. Now they understand voting and they realize that the franchise is the citizens' badge of sovereignty, and when alone in the voting booth with their consciences and their God, they will vote right, as they have the light to see the right.

Here in Minnesota the League of Women Voters is a great help. Men voters have no similar organization that helps them as unselfishly and as intelligently as does this organization. It stands for no party organization, though it deals with the leading political questions of the day. It stands for what is best in civic life.

Too Much.

A very stout man mounted the scales in a downtown drugstore the other day and dropped a penny in the slot. There was some wait, and the clanking and rattling of the inward of the contraption, and the pointer finally came to rest somewhere not far from the 300 mark. There was an unseen witness to the ceremony, and, as the fat man woefully contemplated the result, the voice of a wee small boy piped up from behind him: "Say, mister, how many times did it go around?"

Bath in West Africa.

The Bantu of West Africa makes elaborate preparations for a real soak by digging a hole in the ground, in which he puts seven herbs, a quantity of peppers, cardamom seeds and bushes, then he pours in a lot of boiling hot water. After he gets in, a light frame covered with clay is put over the hole to keep in the steam. After hours of steaming the bather emerges and is washed off with clean water, then kneaded by a professional for one hour, when he dons his scanty clothing and goes his way "shivering with cleanliness."

FIXING CARS RIGHT THE ONLY WAY HERE

There are ways and ways of fixing cars but there's only one right way here. Your car must run to suit us and that's running just like you would like to have it running. Bill Bock is cranky about the way he lets repair jobs go out and it's a mighty good thing for you that he is for that assures you of a job that is a job.

FORD BUILDS OWN WINDSHIELD GLASS

Departs From Customary Methods And Applies Ford Principles

The Ford Motor Company, Detroit, has begun to manufacture its own plate glass, and already has in operation the first modern glass house ever equipped especially to make glass for automobiles.

As is customary when taking over the manufacture of a new product, Ford has applied his own principles of production, and, as a consequence, the methods and machinery used in making Ford glass are a radical departure from established practice. The Ford continuous conveyor system features the operations so that from the time the glass leaves the furnace until it becomes a polished windshield, it is always moving.

Glass making, when viewed in the Ford plant, looks to be very simple. The raw materials are introduced into the furnace where they become a molten mass. Drawn from the furnace in a semi-liquid state, the glass passes under a roller, which gives it width and thickness, and on to a moving conveyor. This carries it for 464 feet thru a gradually cooling furnace. At the end, it is cut and placed on another conveyor which carries it thru the grinding and polishing, after which it is ready for use.

This adds a new link to the fast growing chain of Ford industries which are being established and expanded from time to time in line with the Ford policy to achieve complete independence of outside material sources in manufacturing Ford products, and at the same time are the means by which Ford is enabled to use in the production of motor cars, trucks and tractors material of unusually high quality and sell them at the famous Ford prices.

The Olive Tree.

The olive tree is supposed to have been originally a native of Greece, but it is now naturalized in the south of France, Italy and Spain, where it has been extensively cultivated from time immemorial for the oil expressed from the fruit. The tree attains an almost incredible age. Near Port, in the vale of Jericho, is a plantation about two miles in extent of very old trees supposed to be the same trees mentioned by Pliny as growing there in the first century of the Christian era.

Progress Want Ads Bring Results.

IF YOU WOULD HAVE YOUR WATCH KEEP TIME—

There's one place to bring it—HERE! The watches that are being brought here come in with all kinds of complaints and they go out running as sweet as your car motor. They come in with broken mainsprings, broken crystals, dirty insides, in fact with everything wrong that could happen to a watch.

But how they go out! Mainsprings doing what they should, crystals fixed, works as clean as the proverbial tooth, and everything ticking away as you would like to have it.

WHAT'S THE HURRY? WE'VE TWO YEARS YET!

The Census in 3800 B. C.
While priding ourselves upon our census system it may be well to remember that census taking is no new thing. The first count of British heads took place in 1801, after long opposition based on superstition. The Romans looked upon it as a regular institution. But it is now found that Babylonians took a census before 3800 B. C., which was perfected, and returns made by districts, in 2300 B. C. Fragments of the returns in the second dynasty of Ur are on tablets in the British Museum—1 from the Scientific American.

Flowers for Luck.
In Switzerland, when the cows are driven to the mountain pastures for the summer, the leader, which wears a bell, has a long neck garlanded with flowers for luck.

Acorns for Luck.

From ancient times the acorn has been held a protection against lightning, as the tops of many of our flag-staffs, the ends of our cornice poles, our umbrella tassels and our blind-cords still attest.

Gather Their Own Salt.

Many natives of Palmyra gather their own salt by dipping small quantities of water from some salt lakes by the bucket and allowing it to evaporate.

—BUTTERNUT BREAD—

IS USED IN MOST OF THE RESTAURANTS IN THIS CITY SIMPLY BECAUSE THE PATRONS WANT BETTER BREAD.

Bob-White Eats Beetles.

The bob-white eats the adults beetles of the corn rootworm which lay the eggs that later become larvae or worms and infest the corn. As many as 12 of the beetles, according to the bureau of entomology of the United States Department of Agriculture, have been found in the stomach of one bob-white. The red-headed woodpecker, nighthawk, cardinal kingbird and phoebe also eat the beetles and reduce the damage done by the southern corn rootworm.

Early Epigrams.

It has to be remembered that the early epigrams which now sound so fat, were not insipid when they were perpetrated.

Good News!---

Kelly-Springfield Tires Are Now Priced as Low as Other Standard Tires

One of the drawbacks to some folks equipping their cars with KELLY-SPRINGFIELD tires has been the fact that the first cost was higher than the ordinary tire, despite the fact that the tire upkeep was lower in the long run.

But now we have the good news for you that KELLY-SPRINGFIELDS are priced no higher than any other tire of the same grade and mileage.

Before you spend money on any tire, drop in and let us explain the points of the KELLY-SPRINGFIELD and show you some tires that have had hard usage.

VISITING LAD HAS NARROW ESCAPE IN AUTO ACCIDENT

Grant, 4 Year Old Son
of Mrs. Fannie Ken-
drick, Knocked Down,
Cut And Bruised.

RAN IN FRONT CAR

Little Grant the 4 year old son of Mrs. Fannie Kendrick of Pittsburg who is a guest at the home of her parents, Mr. and Mrs. Geo. W. Johnson of Second Street was playing in the yard and when he was running in front of the Johnson home about 7 o'clock last evening the little lad was playing on the sidewalk and decided to cross the street and ran right in front of an automobile being driven by W. L. Phelps of So. Fourth Street.

Mr. Phelps was driving slowly at the time, but did not see the child until he darted right in front of his car. He applied the brakes immediately but was unable to stop the machine until the lad was struck and knocked down. His little body lay on the sidewalk right up against the front wheel and he only escaped serious injury by the prompt action of the driver in stopping the car.

A cut on his forehead, a bloody nose and painful bruise and a crack out the face were the extent of little Grant's injuries and he was taken home again although somewhat temporarily disfigured.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rash, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35¢ an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins.

THE GRILL'S COOL

Down where the GRILL is located the heat does not penetrate and the cooling breezes produced by electric fans make life worth living again, during these days of torrid heat.

The cooling drinks and the spot-touching sundaes are making good, especially the fresh peach sundaes.

CHAUTAUQUA

"Quality Programs Aug. 5 to 11th for Everybody"

:- Twenty-five Events! - Music! - Entertainments! - Lectures! :-

We are enthusiastic about this program. We know what it is. Perhaps you will think we are saying some strong things about it. There are six features to which we want to call your special attention.

FIRST:—The "Morning Hour" lectures. In response to the popular and continuous demand expressed to us for more lectures, we are this year adding to an already full program four special lectures. These will be given in the afternoon in place of the usual series lectures by the superintendent. But the valuable and popular superintendents' lectures will be assigned to the "Morning Hour," an innovation with us, but a tried and successful institution in Western Chautauquas. At eleven o'clock on the second, third, fourth, and fifth days, the "Morning Hour" lectures. Come out and be at the first, and you'll hear the series.

SECOND:—On the second night, we are presenting Julius Caesar Nayphe in his "Oriental Pageant." You will realize the popularity of his lecture-demonstration when we tell you that, according to the averages of the reports of committees, he scored the highest of any attraction on our Americana-dian circuit last summer. He is bound to satisfy you with his unusual program. There is nothing else like him on the lecture platform. We might mention in passing that the musical program on the second night is given by the Ernest Gamble Concert Party.

THIRD:—On the third night you will have an opportunity to hear the Dunbar Philharmonic Choir in a magnificent three-part program of vocal music, distinctly high grade but not "high-brow." Trained by Ralph Dunbar, who is known everywhere for his artistically coached organizations, this group will live up to the best of his reputation. Sacred numbers, popular light and grand opera selections, and the opera "Cavalleria Rusticana" in costume.

FOURTH:—On the fourth night comes the feature lecture of the week, by Brooks Fletcher, the dramatic orator. More than one million people in the United States and Canada have paid to hear Brooks Fletcher again and again. He goes back to the same towns year after year. He fills more return dates than any other present-day orator. His voice, his appearance, his personality, all contribute to his magnetic control over his audience. His lecture will thrill and inspire all who hear it. Be sure you are in his audience.

FIFTH:—On the fifth night "Turn to the Right." Aren't you delighted? We are. To present this "comedy that will live forever" has been a long unfulfilled ambition.

It was difficult to secure the rights to the play. But we finally won out and you are to be congratulated. The cast, directed by John A. Regan, whom many of you will recall as the "quite so" deacon in "Polly of the Circus," will be competent, and the costumes and scenery will insure an artistic production. This play ran 443 nights in New York. It will be in Clearfield only once. Don't let your friends miss it.

SIXTH:—On the last night comes Ralph Bingham. This man-o'-fun has been before the public since he was six years of age. His versatility is remarkable. He is pianist, violinist, impersonator, and raconteur. He puts himself into his humor. He is 100 per cent success. Hear him on the last night, "Joy Night."

This quality has been improved each year despite rising costs. Since 1914 our average cost has increased 83 1/2 per cent. We have asked the people who believe in Chautauqua to meet about 50 per cent of the increase. By rigid economy, and by expanding our movement so as to reduce the overhead cost per town, we have maintained and improved the quality of the program. The program for 1922 is our star witness.

Mrs. M. J. McGannon, of DuBois, underwent a slight surgical operation at the Clearfield Hospital yesterday. She is recovering nicely.

Born to Mr. and Mrs. Ray Bellas at the Clearfield Hospital on Tuesday morning last a 12 pound girl baby.

Mrs. Paul Allen, of Harrisburg, who has been visiting Clearfield relatives the past two weeks, returned to her home today.

Mrs. Minnie Brown, of Cherry who underwent a serious surgical operation at the Clearfield Hospital last week, is convalescing most satisfactorily at this time.

Mrs. C. J. Strausbaugh has returned after spending ten weeks with her son Fred in Wooster, Ohio.

Mr. and Mrs. Elbert O. Harshorne and daughters Marie and Marjorie, just returned to their home in Cleveland, Ohio, after spending a few days with Mr. and Mrs. Milo Lawhead.

Mr. and Mrs. Harry J. Sunderland and little daughter, Betty Jane, of Chicago, Ill., are spending their vacation with his parents, Mr. and Mrs. J. E. Sunderland on Martin street.

Thomas Tootle and Mrs. Charles Tootle and son Leslie, of Akron, O., are visiting Mr. Tootle's daughter, Mrs. Oliver Tibbins of 482 Ninth St.

Miss Alice Hill, of Clearfield, who is the guest of Miss M. Caroline Weiss was the guest of honor at a luncheon given at the Harrisburg Country Club yesterday by Mrs. Anne W. Mc Lain. Other guests were Mrs. George Preston Mains, Miss Bertha Minister, Mrs. J. Austin Brandt, Mrs. Anne W. McLain, Miss Helen Wallace, Miss Weiss, Mrs. John H. Weiss and Mrs. Robert H. Irons.—Harrisburg Evening News.

Mrs. Wm. Beish and Mrs. Guy Shaw visited Mrs. A. G. Peters of Woodland, yesterday and enjoyed one of Mrs. Peter's famous chicken dinners.

Didn't Enjoy It.
Young Harley was home for a few days from a cruise with the merchant marine. "Well," said the man from the home town gently, "how have you been enjoying maritime life?" "I haven't been enjoying it at all, sir," answered the youngster, blushing. "She broke the engagement."—Pioneer Enterprise.

Serves Time for Dog

Sport bit a little girl in Hoboken, N. J. He was taken to the pound for examination, but Charles Strick prevailed on authorities to let him "do time" for his pet. Then he secured a two-hour parole to visit the dog.

PROGRESSIVE IS
WINNER FOR SENATE
IN NEBRASKA

Omaha, Neb., July 19.—The apparent victor of R. N. Howell in the race for the Republican nomination for United States Senator indicates a sweep of yesterday's Republican primaries by Progressives. Mr. Howell, who made his campaign as a forward looking Republican, with a platform of progressive principles was 3 times elected Republican National committeeman from this State in statewide primaries.

He is opposed to the ship subsidy bill, sponsored by President Harding and favors a Government merchant marine and a farm bloc in Congress.

His chief opponent, Representative Jeffers, regarded as a conservative called attention in his campaign advertisements to praise given him by Representative Mondell, the Republican floor leader, saying he had been "a true, consistent and earnest worker" in the Republican party.

PENN STATE MAKES
FINE REPUTATION

State College, Pa., July 20.—(U. P.) An indication that students entering Pennsylvania State College from vocational high schools do work as good or better than students prepared by an academic course was given here today when Professor C. Everett Myers, of the School of Agriculture, announced the result of a study made of college grades in three classes. A report of the research of Professor Myers states that the vocational high school students, during the period studied, have done college work that is on the average about one per cent higher than the general average for the subjects in which they are enrolled. Only in modern language were the vocational school men and women appreciably less well prepared than the others.

An Extremist.
"Mrs. Exe is a great stickler for form and ceremony, isn't she?" "Should say so. Why, that woman would insist on dressing up to entertain an idea."—Boston Transcript.

Stand by the Truth.
Much less courage is needed to bluster out a defiance before our enemies than is needed to simply state the truth as we see it, and quietly stand by it. After all, quiet steadfastness can always be trusted to carry conviction.

PENNSY DETECTIVE
SHOT FROM BRUSH

Monongahela, Pa., July 20.—Three Pennsylvania Railroad detectives and a constable were shot from ambush early today while returning on a gasoline motor speeder from Cokeburg. Detective Harry Lauderbach was shot in the forehead, arm, chest and back. He was taken to a hospital here and his condition is said to be critical. The four men were detailed to patrol the Ellsworth branch of the Pennsylvania Railroad following an attempt Monday night to blow up a trestle at Reed's Mills. While passing thru Bentleyville-Ellsworth borough line on the speeder men concealed in the bushes opened fire. Lauderbach was struck by rifle balls while detectives Elmer Libler, George Thomas and constable Martin Hannigan received slight wounds in the body.

Bad Risk in Windows.
Nearly every business contributes its share of specialized knowledge to the common fund. It will strike many persons as a curious piece of information that plate-glass insurance companies class windows with black lettering on them as "extra hazardous" risks. The explanation given is that a black surface absorbs the sun's rays. By this means, it is stated, an unequal expansion is produced throughout the plate; and under the influence of a sudden gust of cold or any other quick change of temperature a strain is developed which may break the glass.

Spanish Doctors Poorly Paid.
Physicians in Spain are by means well paid, and they are expected to attend the poorest without any charge.

NUMBER 149

Industrial Situation Becomes More Desperate As Efforts Looking To Settlement Fail

Operators Making Preparations In Some Sections To Attempt Opening Of Mines, While Others Decide To Await Developments—Ask Both Military And State Police Protection.

HARD COAL MAYORS MAY HAVE PLAN

Washington, D. C., July 20.—Suggestions for a settlement of the Anthracite coal strike may be framed at a conference of mayors from several of the cities in the Pennsylvania hard coal field. Officials of Scranton and Wilkes-Barre are here. It is understood a meeting will be held this afternoon and if a plan of action can be agreed upon it will be submitted to President Harding. The mayors taking part in the conference here are Durkin, of Scranton; Hart, of Wilkes-Barre; Brown, of Pittston, and Harvey, of Hazelton.

Harrisburg, July 19.—Conditions in the bituminous coal fields and plans for the opening of the mines in compliance with the request of President Harding to the governors of coal producing states were discussed today at a conference between Governor Sproul and representatives of Western Pennsylvania operators.

The operators hope to open some mines early next week and were insistent that state police and National Guard protection be given them. The governor is not ready to furnish troop protection, as he thinks the better element in the mining districts looks upon the shortage of coal as a menace and respects the request of President Harding that the resumption of mining be started at once and the trouble arbitrated.

Michigan Governor is Ready to Act Lansing, Mich., July 20.—The state is ready to open and operate all mines within its borders, Governor Alex J. Groesbeck wired President Harding today. The Governor announced that Federal co-operation was all he needed to start the production of coal at the rate of 100 cars a day in and around Saginaw.

Washington, D. C., July 19.—While government interest in the industrial situation continued to be centered today chiefly in the coal strike and particularly in the reaction from President Harding's invitation to governors of coal producing states to co-operate with him in the effort to reopen the mines, evidence was not lacking that the coal and railroad strikes were co-related at least in effect.

Unofficial reports received here brought further details of reduction in coal output because of inadequate car supply, with the result, it was said, that production was tending to become more than ever confined to non-union fields. Effects of reduced movement of coal cars was said to be particularly marked in West Virginia districts.

Two Governors Dissent With but two exceptions, the governors who replied to President Harding's telegram today, pledged their cooperation and support to the Federal administration without qualification. Governor Morrison of North Carolina replied in a decided negative, asserting that so far as he knew there were no strike troubles in the mining industry of that state and it would be a "vain thing" for him to "invite" miners to return to work.

"I would not do so anyway," Governor Morrison was quoted as saying. Governor Trinkle of Virginia, in his reply, called attention to the small amount of coal produced in that state.

John L. Lewis, president of the United Mine Workers of America, maintained his cheerful attitude toward the situation, declaring that after 16 weeks of strike the tasks of the men who had quit work were being constantly augmented.

Compers Propheesies Reaction Washington, D. C., July 20.—A powerful reaction will come against

the Government's policy of repression by "force and military dictatorship" in the coal strike, president Samuel Compers, of the American Federation of Labor warned today. The veteran labor leader directed a bitter attack against the old guard leaders.

Harrisburg, Pa., July 20.—Conferences were being held here today to determine upon the scope of the protection of the State for the resumption of mining operations in the western Bituminous field. Governor Sproul was believed to have planned to use several cavalry units of the National Guard to protect mining operations. Meanwhile the Guard is under orders to proceed to Mount Gretna for its regular summer training and encampment. None of these orders have as yet been countermanded. In conferences with operators State Police and county officials, Governor Sproul has made a thorough study of the means of protection in the Bituminous field where operators plan to resume operations next week.

Raising Sines Of War Wilkes-Barre, Pa., July 20.—Engineers, firemen, pump runners and other maintenance men permitted to remain at work in the mines must pay a double assessment to the strike fund established to assist the striking miners, it was learned today. Maintenance men instead of being assessed one day's pay will be assessed two day's pay. The double assessment will net the union \$40,000 a month. The order is to be effective as of July 1st and circular letters are now being sent to the maintenance men by the scale committee.

Washington, D. C., July 20.—A coal shortage this winter is inescapable even if coal production could be resumed at once at full capacity. Attorney General Daugherty declared today. Other officials indicated that a coal rationing system will have to be put into effect when cold weather comes and the priority orders will have to be issued to the railroads to protect such communities as New England and the Northwest where the shortage is expected to be acute. Daugherty said he hoped the use of Federal troops will not be necessary to maintain order. There is no disposition on the part of the Government, he said, to interfere with the legitimate performances of labor unions, but he warned them that the Government and the laws are paramount.

Chicago, Ill., July 20.—The industrial situation due to the coal strike hourly grew more critical in the middle west today, with scores of plants threatened with complete shut down unless speedy relief is forthcoming. Hundreds of men were being laid off as industries were being put on part time basis. The Illinois Coal Producers Association announced they would be unable to reopen their mines under President Harding's plan, on account of Illinois State laws which provide that the mines shall be operated on a closed shop basis. Reports were received here that the output from non-union mines was decreasing. This was largely due to the inability to get cars with which to haul coal.

All Efforts To Bring About Settlement Of Rail Strike Fails And Labor Board Again Throws Up Its Hand.—Seniority Rights Is The Rock Upon Which Negotiations Split This Time.

TRAIN SERVICE IS BADLY DEMORALIZED

Washington, D. C., July 20.—Legal action will probably be one of the government's next moves to end the menace of the nation-wide mine and rail strikes. Department of Justice officials are examining a mass of reports from all over the country to determine whether or not the government can prosecute the principals. One angle now under investigation is whether any agreement exists between the striking miners and the railroad shippers. Charges that the two groups are working together to prevent the movement of coal have been received at the Department. Should these charges be substantiated it is held the government could act against the strike leaders charging a conspiracy to restrain interstate commerce.

Chicago, Ill., July 20.—Railroad strikers and the carriers dug in for a finish fight today as the United States Rail Labor Board announced it would make no further efforts to bring peace. Ben Hooper, Chairman of the Board, stated that all attempts by the Board to bring about arbitration of the strike had failed and that all negotiations have been ended. There is no prospect of settlement said Hooper, who has worked day and night since the strike started to bring peace. The stumbling block is the insistence of the strikers that they be restored to their full seniority rights in the event of their returning to work. The carriers, the Chairman said, refused to assent to this.

Washington, D. C., July 20.—Further drastic curtailment of railway service all over the country was announced by the Post Office Department. Sixteen trains on the Northern Pacific, in Washington, has been discontinued within the last twenty-four hours. Three trains on the Norfolk & Southern, in North Carolina, were taken off today, while the fuel supply of the Wabash Railroad in Missouri is only sufficient for twenty days, it was announced. Serious delay in transportation between Daleon and Cross Plains, Texas, was caused by United States Marshals refusing to protect strike breakers on the M. & T. T., it was charged by General Manager Whittenton in a message to the Department.

Chicago July 19.—Failure of all efforts to bring about the settlement of the country wide strike of the railway shippers was announced in a statement issued tonight by Ben W. Hooper, chairman of the United States railroad labor board.

"As there does not seem to be any probability of reconciling the antipodal views of the carriers and the men on the question at issue, the labor board and none of its members are now engaged in any further efforts along that line," the statement said.

At the same time the statement pointed out that virtual agreement had been reached between the rail heads and the strike leaders on all of the five points in dispute except that of the return to the strikers of their seniority rights—a question which was not originally in dispute between the roads and their men.

Statement Issued Railroad executives, through the Western president's committee on public relations of the Association of Railway Executives, issued a statement tonight corroborating Chairman Hooper's statement that no further peace conferences were being held and that the seniority issue was the principal stumbling block.

"There are now no conferences in progress looking to a settlement of the shop crafts' strike," the executive statement said. "Chairman Hooper of the labor board has held informal conferences with some railway executives, but these have had no

results and are now at an end. "Since the strike was called the so-called question of seniority rights has arisen and has now become one of importance."

Chairman Hooper's statement said a conference was held last Saturday between B. M. Jewell, head of the shippers; A. O. Wharton, labor member of the board and Mr. Hooper and representatives of the seven striking organizations when Mr. Jewell indicated he would be willing to submit to his committee an agreed program if the carriers concurred in it.

Seniority Is Obstacle The carriers raised no objections to reopening the wage decision and the dispute regarding seven protested rules, he said, and declared that "the foregoing disposition of contracts, wages and rules would remove from conflict all three of the questions upon which strike votes were taken."

Regarding adjustment boards, Mr. Hooper said many roads are willing to have regional boards, some are willing to have a National adjustment board and some favored boards on each individual road. "An agreement of some sort could doubtless be reached upon this matter," he said.

"At present," the statement continued "there is no possibility of an agreement on the question of the reinstatement of the striking employees with all rights restored."

247 Trains Are Cancelled Chicago, July 19.—The railroad shippers' strike, 19 days old, is beginning to be felt throughout the country in a gradual slowing up of schedules and the cancellation or combination of many trains, to save equipment.

Fifteen railroad centers in the middle and far west reported today that 247 trains have been or are about to be cancelled. The southwest, from St. Louis to Texas points, appears to be the hardest hit.

Combined with the rail strike the coal strike also is entering into the transportation question. Railroad stocks were depleted when the men struck and with the curtailment of freight service, several roads are hard pressed for coal to keep their engines running.

Richmond Clerks Come Out Richmond, Va., July 20.—Several hundred Chesapeake & Ohio clerks walked out here this morning. Hundreds of strikers greeted them and marched with them to an auditorium where a meeting will be held. Eastern Roads Prepared For Long Struggle New York, N. Y., July 20.—Forty executive of eastern carriers met here today to discuss problems and decide issues growing out of the rail strike. Before the executives went into session it was unofficially stated that the eastern roads were prepared for a long drawn out struggle, but were of the mind that the strike would end with the gradual disintegration of the strikers' forces. A formal statement will be issued at three o'clock, it was announced.

ITHACA, N. Y., MAN MURDERS HIS WIFE THEN SUICIDES

According To Authorities Who Find Bodies Of H. M. Sherar and Wife In Creek.

CHILD A WITNESS

Williamsport, Pa., July 20.—The bodies of the man and woman found in Lecom Creek with their throats cut, near Bodines, today were identified as Mr. and Mrs. Harry M. Sherar of Ithaca, N. Y. The couple with their three year old child left Ithaca on a vacation trip to visit Mr. Sherar's parents at Harrisburg. The bodies were discovered by a passing motorist who noticed the standing car containing a little girl crying "mamma." He stopped and found the bodies in the creek with their throats cut. No evidence has been found to indicate the cause of the deaths. Authorities today investigated the case and advanced the theory that the man murdered his wife in the water and then committed suicide. They said robbery was not the motive for the crime, as both the man and woman had money in their possession. Mr. Sherar had a gold watch which was not taken.

BOB LEAVY'S TENDER HEART CAUSES HIM TO WANDER ALONE

Saves Poling Cat's Life When Harvot Hands Would Slay It & Scent of Deed With Him Yet.

SKUNK LOWLY BUT,

Some people say that the skunk is the most inoffensive of all the animals which infest our hills and dales, but if you cross him in any way—oh my!

The folks living up around Fred Leavy's barn, back of the steam house agree with part of our opening observation. Yesterday while Leavy's harvest crew were cutting hay on Fred's meadow in Lawrence township they ran onto a family of half grown skunks. "Three were killed" before Bob Leavy arrived and tender heartedly interceded for the last "perfume dispenser" and saved his life. One of the executioners picked the pretty little animal up by the tail and dropping him into a chop sack, tied the same under the hay rigging and when Bob drove to the barn and unloaded his wagon he found he had a real live skunk on his hands.

Now that is some problem. Did it ever happen to you? If it didn't you wouldn't know what to do with it that's what was wrong with Bob. Like the Irishman who caught the wildcat, he needed a lot of help to let go. Feleagat, Bob Mitchell and several other spectators attracted to the scene, offered advice from a safe distance as to how to dispose of the monster. Bob finally tried shaking the little animal out of the bag. It worked—so did the pole cat. Bob is holding himself aloof from society for a few days. The "pole Kitty" survived the ordeal and promptly skated under the barn.

TEA WAGON DRIVER KILLED BY TRAIN

Altoona, Pa., July 20.—A truck of the Grand Union Tea Company was struck by an express train of the Pennsylvania Railroad near McEvytown early this morning and the driver, William Wagner, aged 52, of Lewistown, instantly killed. Wagner's brother who was with him jumped from the truck just before it was struck and escaped injury.

Miss Ethel Shaw is visiting Mrs. Ardyth Beish who is visiting her uncle in Tyrone.

DESTRUCTIVE AFTERNOON FIRE RAVAGES L. W. POLLACK BUILDING ON MARKET ST.; PROPERTY LOSS AMOUNTS TO THOUSANDS

Fire Discovered About 1 O'Clock Guts Clothing Store; Water Damages Drug Store.

BOY DROPS MATCH

The clothing store of L. W. Pollack, located in the old Norris boarding house on Market street, was gutted and the entire contents ruined by a fire which broke out a few minutes before 1 o'clock this afternoon.

The drug store of Woodward & McPherson, with its stock, located in an adjoining room in the same building was also badly damaged by fire smoke and water, before Clearfield's matchless volunteer firefighters got the flames under control.

On account of the Thursday afternoon closing Mr. Pollack and his clerk had left the store shortly after 12 o'clock to go to the West Side restaurant for a noon day lunch, leaving Mrs. Pollack and her children in the living rooms over the store.

A few minutes before 1 o'clock the fire was discovered by Francis Snavely who was visiting his brother Russell Snavely, who lives in one of the flats over the Pollack store. He is quoted as having said the fire was started when a little three or four year old son of the Pollacks lit a cigarette and threw the match down in the rear of the Pollack apartments. He at once gave the alarm but the flames spread so rapidly the old frame building was burning fiercely with huge volumes of smoke pouring through the store when the firemen arrived.

The firemen prevented the flames from breaking through the roof by the interior of the clothing store was pretty well gutted, while the smoke and water added largely to the damage and loss.

Tenants Suffer Heavy Losses

In addition to the living quarters of the Pollack family there were two flats above the store and drug store. These were occupied by Russel Snavely and Lynn G. Brenneman. There are and smoke, spread so rapidly there was little chance to get anything of value out of these flats and the loss of both families was heavy. Mr. Brenneman and his wife had just gone to housekeeping newly furnishing their flat last week.

No estimate of losses has been made thus far.

HORSE SHOE CHAMP PUTS CLEANER ON WEST SIDE EXPERTS

Lloyd Johnson, Former Goodyear Rubber Co. Champ, Pitches Rings Around Local Hopes.

Last night the Clearfield Horse Shoe men met the enemy from out of town—and a noble foe at that. The challenger was Lloyd Johnson, now of Granpian but formerly champion of The Goodrich Rubber Co., of Cleveland. He was met on the West Pine Street Court by Jay and Withrow of West Side fame—the scores as follows:

Johnson Single Ringers	42
Jay Single Ringers	10
Johnson Double Ringers	4
Jay Double Ringers	0
Johnson Total Score	150
Jay Total Score	62
Withrow Total Score	20
Johnson Total Score	50

(4 Double Ringers)
The visitor certainly is a wizard with the shoes, handling them with a skill and cleverness that is very pretty to see, and a real wonder in "these parts". We don't want to be poor sports but if we must be beaten it is a pleasure to know that the defeat comes from a man who was four years beating the national champion and did it.

COL. MAX KUHN IS NOW ON THE WING; KEEP SHADY, FIDO

Boro Authorities, In Response To Many Complaints, Take Step To Enforce Dog Law.

HAVE 'POUND' OPEN

Col. Max Kuhn, Western Pennsylvania's premier "dog catcher" is now at work as official canine pursuer of Clearfield. The Borough authorities had a "pound" built in the rear of the lockup and Col. Max has orders to first capture all dogs running at large then convey them to the pound where they will be held for the requisite time and then if unclaimed the poor unowned doggie will be sent into dog heaven on his or low, as the case may be, with Col. Max's six cylinders.

The Col. has orders from Burgess Kittelberger to do no executing on the public highways, hence the failure to hear his trusty "six-gun" barking death and destruction to local dogdom.

The Burgess was besieged with so many complaints regarding the running at large of worthless dogs that he had to take steps to abate this complained of nuisance in self defense, so to speak.

If the people who have been complaining will now co-operate with Max the community will soon be ridden of its undesirable canine population.

The present State dog law requires all dog owners not only to pay a license for his dog but he must keep that dog secured upon his own premises. If he allows him to run at large even tho he has a license tag on the dog, the owner is violating the law and is subject to arrest and fine.

If you own a dog you should think enough of him to pay the necessary tax upon him and then take care of him. Don't let him run at large—there are a lot of people here who don't like dogs at any time—they are asking that the dog laws be enforced. Burgess Kittelberger has nothing else to do but order its enforcement. Hence Col. Max is "on the wing," look out for him, Fido.

MAHAFFEY CAMP MEETING JULY 21TH TO 30TH

A convention and campmeeting of the Easter District of the Christian and Missionary Alliance will be held at Mahaffey, beginning tomorrow and continuing until Sunday, July 30th.

The meeting will be in charge of Rev. G. V. Brown, District Superintendent, assisted by Rev. S. W. McGarvey.

Among the speakers during the ten days will be Rev. L. B. Campton, Asheville, N. C.; Dr. W. M. Turnhill, Nyack, N. Y.; Rev. W. T. MacArthur, of New York; Rev. J. D. Williams, St Paul, Minn.; Mr. Chas. B. Doule, Providence, R. I.; "Uncle Charlie," and D. Williams.

Rev. Frank Wrye, of Irvons, will have charge of the music, assisted by Prof. Cedarholm, while Mr. Virgil Reniart, of Taylor University, will reside at the piano.

The children's meeting, held daily in the large tent at 1:00 p. m. will be one of the most interesting of the convention. "Uncle Charlie" Donle will have charge again this year and will use a number of original objects lessons. He will be assisted by "Aunt Sadie" and Prof. Cedarholm.

Improvements have been made on the Camp Ground which will greatly add to the comfort and convenience of our Convention family. These improvements consist of a large addition to the tail-ramp and to the dining hall the erection of 7 new cottages and the installation of electric lights through the entire grounds.

CURWENSVILLE**

Mrs. O. F. Smith spent Wednesday with friends in Philipsburg.

Mrs. E. Becker is seriously ill at her home on South Side.

Mrs. C. W. McClure left today for Clarksburg, Virginia, where she will visit for some time.

The stork visited the home of Mr. and Mrs. Russel Cruikshank on Ridge avenue, July 17, 1922, and left a 10 pound baby boy.

Mrs. William Hykes and two children of Pittsburgh, are visiting Mrs. Mrs. Hykes mother, Mrs. Howard McKosky of Ridge Avenue.

The Adult Bible Class of the Methodist church had a surprise party last evening for Mrs. Leonard Kephart at her home on McNaul street.

William Brown of Clearfield, spent Wednesday evening in Curwensville.

Mrs. Dorothy Wolfe entertained

two tables of Bridge last evening at her home on State Street.

Mrs. Frank Harley was a Clearfield visitor yesterday.

Miss Rebecca Patton has returned to her home in West Grove, Pa., after visiting at the home of Mr. and Mrs. C. S. Russell.

Misses Genevieve Maurey, Elizabeth Wall, Kate Smith and Cora Wolfe were Clearfield visitors yesterday.

THE OLD HOME TOWN

Early Waterway Builder.
Francis Eckerton Bridgewater (1736-1803) was called the "Father of Inland Navigation in Great Britain." He completed a navigable canal connecting the cities of Liverpool and Manchester, and promoted the Grand Trunk canal navigation.

"Ard."
"Ard" is a Saxon termination of personal names, denoting natural tendency, as Godhard, "good-tempered"; Giffard, "liberal"; drunkard, "sot"; sluggard, "lazy," and many others.

By Stanley.

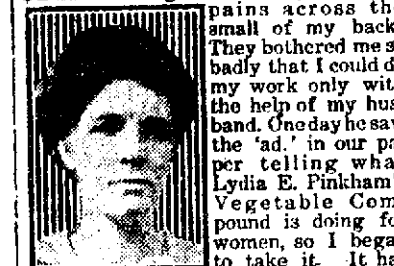

Why the Foreigner Does More.
The good foreigner, however we define him, is distinguished by an instantaneous quickening of vision, writes E. V. Lucas in Harper's Magazine. At home we take almost everything but our neighbors' failings (which must be narrowly inquired into), fatter horses, and venetian collisions, for granted; but when we travel we are observing all the while. This is why it is only foreigners and provincials who know anything of the treasures of art and architecture that any city possesses. Have you ever seen a Florentine in the Uffizi? or a New Yorker in the Metropolitan Museum? This may be a too extreme question but I am certain that no one ever saw a Parisian in Sainte Chapelle, and it was not until they heard, the other day, that it was about to fall down that any Londoner ever entered Westminster abbey. If, however, you wish when in Paris to be sure of hearing your own language, no matter from what country you come, you may confidently seek the Louvre.

Ancient Egyptians' Year.
The ancient Egyptians' year, from which ours is derived, had a natural beginning. It always commenced on the day when Sirius and the sun rose together. The temples of Egypt were really observatories, built to face the star that rose on that day.

**PAINS ACROSS
SMALL OF BACK**

**Husband Helped in Housework—
Lydia E. Pinkham's Vegetable
Compound Made Her Strong**

Postor, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do no work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. Wm. JUNKKE, Postor, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

**MILK SHOULD
CONTAIN MORE
NUTRIMENT THAN
ANEQUAL
AMOUNT OF RICH
BEEFSTEAK**

And the milk that we're serving you every morning does contain more nutriment than the steak and it has the protection of being pasteurized. This process does away with all possible contamination and you're safe in giving the kiddies all they want when they want it.

The milk comes from the best Clearfield County cows and is given every possible care before it reaches us, but we go a step farther and pasteurize it.

Clearfield Dairy Co.

A well-known politician tells this one on himself. A barber while trimming his locks, remarked: "You have a large head, sir (snip, snip). It's a fine thing to have a large head, for a large head means a large brain, and a large brain is the most useful thing a man can have, for it nourishes the roots of the hair."—Boston Transcript.

Cap your jellies and seal fruit and vegetable jars with Parowax—the double-pure paraffine. It's the sure and modern way of preventing mold and fermentation.

Parowax insures the deserved success of home preserving. So convenient to use, too. And so inexpensive—four large cakes in sanitary, dust-proof carton at a trifling cost. Be sure it's Parowax. Your grocer has it.

**SOME NEW BOOKS
READY FOR YOU**

These are the afternoons when you would rather sit and read than do anything else in the world and you'll find that we have just unpacked a lot of books that have just been released from the high prices of copyright and possibly there's the book that you have been waiting for.

There's some of the real late ones here and you'll find that your kind of book is among them. There's hair-raising fiction of battle, murder and sudden death, there's the books that bring the breath of the out-of-doors with them—there's everything that you could wish for in the book line, no matter what your taste for reading may be.

7:16-19-20 pd Prothonotary.

NOTICE TO CONTRACTORS

Sealed proposals giving lump sum price accompanied by receipt for certified check in the sum of One Thousand Dollars (\$1000.00) will be received by the Board of Commissioners of Public Grounds and Buildings at the office of the Superintendent, Capitol Building, Harrisburg, Pa., until 12 o'clock noon, Tuesday, August 8th, 1922, for the reconstruction complete and repairs to the abutments and piers, and the necessary work in connection with the approaches, of a bridge over the West Branch of the Susquehanna River near Mowrie of the New York Central Railroad (River Division) known as the Rolling Stone Bridge, between the Townships of Covington and Cooper in Clearfield County, Penna.

Parties desiring copies of drawing can obtain same by depositing Ten Dollars (\$10.00) which will be refunded upon return of the plans and specifications in good order.

Proposals must be made out upon blanks furnished by the Common wealth of Pennsylvania. All blanks must be properly filled in and no change in phraseology shall be made.

Bidders must make satisfactory arrangements for the materials they propose to use, to be delivered uninterruptedly in such quantities as to complete the work within the term of the contract. Delay in receiving materials for the work will not be accepted as a reasonable excuse for non-completion of the contract according to the terms thereof.

The Board of Commissioners of Public Grounds and Buildings reserve the right to reject any and all bids.

The words "PROPOSAL ROLLING STONE BRIDGE" must be plainly marked on the outside cover of all proposals.

The State Treasurer's Department of the Commonwealth of Pennsylvania will furnish receipt to be enclosed with the bids for all check deposited with the State Treasurer for such purpose prior to ten o'clock A. M. Tuesday, August 8th, 1922.

By order of the Board of Commissioners of Public Grounds and Buildings of the Commonwealth of Pennsylvania.
T. W. TEMPLETON,
Superintendent
SAMUEL B. RAMBO,
Secretary to Board.

Working Toward an Object.
Did you ever hear of a man who had striven all his life faithfully and singly toward an object and in no measure obtained it? If a man constantly aspires, is he not elevated? Did ever man try heroism, magnanimity, truth, sincerity, and find that there was no advantage in them, that it was a vain endeavor?—Henry D. Thoreau.

These scientific guys are continually getting a fellow all tangled up. Just listen to this guy warble:

"A rain storm dries the air, more goes up than comes down; as the sun sets the air grows warmer; the hotter the sun the colder the earth becomes; The sun rises before it is up and sets before it is down.

These statements sound like a fairy tale, but they are all true. Dr. W. J. Humphrey's, quoted in the annual report of the Smithsonian Institution which has just been made public, explains all of them. They are well known to scientists if not to laymen.

As everyone knows, Dr. Humphrey's remarks, water evaporates and is taken up in the air as vapor. This action is continuous all over the earth and the atmosphere would become very soggy if not dried out. Rain is the condensation, or collection and precipitation of these moisture particles; consequently the more it rains the less water there is left in the atmosphere, or the dryer the air becomes.

The second of Dr. Humphrey's paradoxes seems flatly to contradict the old saying "whatever goes up must come down". However, as the writer expresses it, vertical circulation in the atmosphere is only gravitational action, consisting in the sinking of relatively cold and therefore dense air, and rising of warm and light air. Contracted air descends, expanded air ascends. Therefore, mass for mass, the volume of ascending air is always larger than that descending.

In terms of mass, also, Dr. Humphrey says, descending air is less than ascending, for air while raising contains immense quantities of water in suspension, which does not return to the earth with that air, but as rain hail or snow. The air that rises from the land surfaces is greater by at least 20,000,000 tons per second, the measure of world precipitation, than that which ascends, he says.

The third paradox is merely a way of stating that the warmest part of day is not at noon, when the sun is at meridian or overhead and seemingly should be pouring down greatest heat, but later in the afternoon. This is because the surface of the earth and the lower layers of the air continue to absorb more heat from the upper layers for some time after the latter have been receiving the maximum amount of heat radiation from the sun.

While it is not yet universally conceded that the next puzzler "the hotter the sun, the colder the earth" really is true, Dr. Humphrey states the evidence in favor of it is already very strong. There are several explanations offered. The first is that increased radiation from the sun causes earth's air currents to flow more rapidly, bringing down a greater amount of cool air from high latitudes to lower. He rejects this explanation, however.

LEGAL NOTICE

Notice is hereby given that on July 11, 1922, Peter McDermott of Hawk Run, Clearfield County, Pennsylvania, presented his petition to the Court of Common Pleas of Clearfield County, to be discharged as an insolvent, and that said Court granted a rule thereon returnable on the first day of August, A. D. 1922, at 10:30 o'clock A. M. at which time said petition will be heard and passed upon by said Court, and at which time all persons interested may be fully heard.

The Women's Vote Will Play a Greater Part In National Elections

By MRS. PETER OLESEN, Dem. Candidate for U. S. Senate.

The Indiana and Pennsylvania primary election results are typical of what will probably happen west of these states.

In my campaigning thus far in Minnesota I have been astonished by the prairie fire spread of independent political thought. It is not a matter of parties. Party lines are falling away. People out here are less tied to party strings than they have been at any time in the last twenty years. They pride themselves on reading both sides of a question and framing their own conclusions. They are independent in their judgments. Today not only in Indiana and Pennsylvania voters want a change. Anything for a change, they say. How often have I heard this in my trips throughout the state. I have found widespread dissatisfaction with the present congress everywhere.

In the elections in Minnesota this fall I believe many voters will forget parties and vote independently for the candidates they think will honestly represent the common interests of the great majority.

The amazement of the country at the way women are using their franchise will grow. The women's vote is going to play a greater part in the selection of governmental representatives with the passing of every year.

The women found the vote a new thing two years ago. They were probably, in most cases, governed by the advice of men. Now they understand voting and they realize that the franchise is the citizens' badge of sovereignty, and when alone in the voting booth with their consciences and their God, they will vote right, as they have the light to see the right.

Here in Minnesota the League of Women Voters is a great help. Men voters have no similar organization that helps them as unselfishly and as intelligently as does this organization. It stands for no party organization, though it deals with the leading political questions of the day. It stands for what is best in civic life.

Too Much.

A very stout man mounted the scales in a downtown drugstore the other day and dropped a penny in the slot. There was some wait, and the clanking and rattling of the inward of the contraption, and the pointer finally came to rest somewhere not far from the 300 mark. There was an unseen witness to the ceremony, and, as the fat man woefully contemplated the result, the voice of a wee small boy piped up from behind him: "Say, mister, how many times did it go around?"

Bath in West Africa.

The Bantu of West Africa makes elaborate preparations for a real soak by digging a hole in the ground, in which he puts seven herbs, a quantity of peppers, cardamom seeds and bushes, then he pours in a lot of boiling hot water. After he gets in, a light frame covered with clay is put over the hole to keep in the steam. After hours of steaming the bather emerges and is washed off with clean water, then kneaded by a professional for one hour, when he dons his scanty clothing and goes his way "shivering with cleanliness."

FIXING CARS RIGHT THE ONLY WAY HERE

There are ways and ways of fixing cars but there's only one right way here. Your car must run to suit us and that's running just like you would like to have it running. Bill Bock is cranky about the way he lets repair jobs go out and it's a mighty good thing for you that he is for that assures you of a job that is a job.

FORD BUILDS OWN WINDSHIELD GLASS

Departs From Customary Methods And Applies Ford Principles

The Ford Motor Company, Detroit, has begun to manufacture its own plate glass, and already has in operation the first modern glass house ever equipped especially to make glass for automobiles.

As is customary when taking over the manufacture of a new product, Ford has applied his own principles of production, and, as a consequence, the methods and machinery used in making Ford glass are a radical departure from established practice. The Ford continuous conveyor system features the operations so that from the time the glass leaves the furnace until it becomes a polished windshield, it is always moving.

Glass making, when viewed in the Ford plant, looks to be very simple. The raw materials are introduced into the furnace where they become a molten mass. Drawn from the furnace in a semi-liquid state, the glass passes under a roller, which gives it width and thickness, and on to a moving conveyor. This carries it for 464 feet thru a gradually cooling furnace. At the end, it is cut and placed on another conveyor which carries it thru the grinding and polishing, after which it is ready for use.

This adds a new link to the fast growing chain of Ford industries which are being established and expanded from time to time in line with the Ford policy to achieve complete independence of outside material sources in manufacturing Ford products, and at the same time are the means by which Ford is enabled to use in the production of motor cars, trucks and tractors material of unusually high quality and sell them at the famous Ford prices.

The Olive Tree.

The olive tree is supposed to have been originally a native of Greece, but it is now naturalized in the south of France, Italy and Spain, where it has been extensively cultivated from time immemorial for the oil expressed from the fruit. The tree attains an almost incredible age. Near Ferrara, in the vale of Comana, is a plantation about two miles in extent of very old trees supposed to be the same trees mentioned by Pliny as growing there in the first century of the Christian era.

Progress Want Ads Bring Results.

IF YOU WOULD HAVE YOUR WATCH KEEP TIME—

There's one place to bring it—HERE! The watches that are being brought here come in with all kinds of complaints and they go out running as sweet as your car motor. They come in with broken mainsprings, broken crystals, dirty insides, in fact with everything wrong that could happen to a watch.

But how they go out! Mainsprings doing what they should, crystals fixed, works as clean as the proverbial tooth, and everything ticking away as you would like to have it.

Third St., Nevling Bldg.

WHAT'S THE HURRY? WE'VE TWO YEARS YET!

The Census in 3800 B. C.
While priding ourselves upon our census system it may be well to remember that census taking is no new thing. The first count of British heads took place in 1801, after long opposition based on superstition. The Romans looked upon it as a regular institution. But it is now found that Babylonia took a census before 3800 B. C., which was perfected, and returns made by districts, in 2300 B. C. Fragments of the returns in the second dynasty of Ur are on tablets in the British Museum—1 from the Scientific American.

Flowers for Luck.
In Switzerland, when the cows are driven to the mountain pastures for the summer, the leader, which wears a bell, has a long neck garlanded with flowers for luck.

Acorns for Luck.

From ancient times the acorn has been held a protection against lightning, as the tops of many of our flag-stuffs, the ends of our cornice poles, our umbrella tassels and our blind-cords still attest.

Gather Their Own Salt.

Many natives of Palmyra gather their own salt by dipping small quantities of water from some salt lakes by the bucket and allowing it to evaporate.

—BUTTERNUT BREAD—

IS USED IN MOST OF THE RESTAURANTS IN THIS CITY SIMPLY BECAUSE THE PATRONS WANT BETTER BREAD.

Bob-White Eats Beetles.

The bob-white eats the adults beetles of the corn rootworm which lay the eggs that later become larvae or worms and infest the corn. As many as 12 of the beetles, according to the bureau of entomology of the United States Department of Agriculture, have been found in the stomach of one bob-white. The red-headed woodpecker, nighthawk, cardinal kingbird and phoebe also eat the beetles and reduce the damage done by the southern corn rootworm.

Early Epigrams.

It has to be remembered that the early epigrams which now sound so fat, were not insipid when they were perpetrated.

Good News!---

Kelly-Springfield Tires Are Now Priced as Low as Other Standard Tires

One of the drawbacks to some folks equipping their cars with KELLY-SPRINGFIELD tires has been the fact that the first cost was higher than the ordinary tire, despite the fact that the tire upkeep was lower in the long run.

But now we have the good news for you that KELLY-SPRINGFIELDS are priced no higher than any other tire of the same grade and mileage.

Before you spend money on any tire, drop in and let us explain the points of the KELLY-SPRINGFIELD and show you some tires that have had hard usage.

VISITING LAD HAS NARROW ESCAPE IN AUTO ACCIDENT

Grant, 4 Year Old Son
of Mrs. Fannie Ken-
drick, Knocked Down,
Cut And Bruised.

RAN IN FRONT CAR

Little Grant the 4 year old son of Mrs. Fannie Kendrick of Pittsburg who is a guest at the home of her parents, Mr. and Mrs. Geo. W. Johnson of Second Street was playing in the yard and when he was running in front of the Johnson home about 7 o'clock last evening the little lad was playing on the sidewalk and decided to cross the street and ran right in front of an automobile being driven by W. L. Phelps of So. Fourth Street.

Mr. Phelps was driving slowly at the time, but did not see the child until he darted right in front of his car. He applied the brakes immediately but was unable to stop the machine until the lad was struck and knocked down. His little body lay on the sidewalk right up against the front wheel and he only escaped serious injury by the prompt action of the driver in stopping the car.

A cut on his forehead, a bloody nose and painful bruise and a crack out the face were the extent of little Grant's injuries and he was taken home again although somewhat temporarily disfigured.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rash, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35¢ an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins.

THE GRILL'S COOL

Down where the GRILL is located the heat does not penetrate and the cooling breezes produced by electric fans make life worth living again, during these days of torrid heat.

The cooling drinks and the spot-touching sundaes are making good, especially the fresh peach sundaes.

CHAUTAUQUA

"Quality Programs Aug. 5 to 11th for Everybody"

:- Twenty-five Events! - Music! - Entertainments! - Lectures! :-

We are enthusiastic about this program. We know what it is. Perhaps you will think we are saying some strong things about it. There are six features to which we want to call your special attention.

FIRST:—The "Morning Hour" lectures. In response to the popular and continuous demand expressed to us for more lectures, we are this year adding to an already full program four special lectures. These will be given in the afternoon in place of the usual series lectures by the superintendent. But the valuable and popular superintendents' lectures will be assigned to the "Morning Hour," an innovation with us, but a tried and successful institution in Western Chautauquas. At eleven o'clock on the second, third, fourth, and fifth days, the "Morning Hour" lectures. Come out and be at the first, and you'll hear the series.

SECOND:—On the second night, we are presenting Julius Caesar Nayphe in his "Oriental Pageant." You will realize the popularity of his lecture-demonstration when we tell you that, according to the averages of the reports of committees, he scored the highest of any attraction on our Americana circuit last summer. He is bound to satisfy you with his unusual program. There is nothing else like him on the lecture platform. We might mention in passing that the musical program on the second night is given by the Ernest Gamble Concert Party.

THIRD:—On the third night you will have an opportunity to hear the Dunbar Philharmonic Choir in a magnificent three-part program of vocal music, distinctly high grade but not "high-brow." Trained by Ralph Dunbar, who is known everywhere for his artistically coached organizations, this group will live up to the best of his reputation. Sacred numbers, popular light and grand opera selections, and the opera "Cavalleria Rusticana" in costume.

FOURTH:—On the fourth night comes the feature lecture of the week, by Brooks Fletcher, the dramatic orator. More than one million people in the United States and Canada have paid to hear Brooks Fletcher again and again. He goes back to the same towns year after year. He fills more return dates than any other present-day orator. His voice, his appearance, his personality, all contribute to his magnetic control over his audience. His lecture will thrill and inspire all who hear it. Be sure you are in his audience.

FIFTH:—On the fifth night "Turn to the Right." Aren't you delighted? We are. To present this "comedy that will live forever" has been a long unfulfilled ambition.

It was difficult to secure the rights to the play. But we finally won out and you are to be congratulated. The cast, directed by John A. Regan, whom many of you will recall as the "quite so" deacon in "Polly of the Circus," will be competent, and the costumes and scenery will insure an artistic production. This play ran 443 nights in New York. It will be in Clearfield only once. Don't let your friends miss it.

SIXTH:—On the last night comes Ralph Bingham. This man-o'-fun has been before the public since he was six years of age. His versatility is remarkable. He is pianist, violinist, impersonator, and raconteur. He puts himself into his humor. He is 100 per cent success. Hear him on the last night, "Joy Night."

This quality has been improved each year despite rising costs. Since 1914 our average cost has increased 83 1/2 per cent. We have asked the people who believe in Chautauqua to meet about 50 per cent of the increase. By rigid economy, and by expanding our movement so as to reduce the overhead cost per town, we have maintained and improved the quality of the program. The program for 1922 is our star witness.

DOINGS OF THE DUFFS

It Makes a Difference Who Uses Them

By Allman

Los Incorables
The work of a cloth director is hard but it is not wholly without humor. Recently a man was telling of his experience with the boy choir of an English cathedral. "I was teaching them," he said, "to chant the Litany and flustered myself that we were getting along unusually well when I noticed the words they were chanting for the response. Every last one of them was saying 'Lord have mercy upon us miserable sinners.' Surely it was true enough of most of them." Youth's Companion

Homing Ducks
An Innerwick (Scotland) farm servant said six ducks to a lawyer living three miles away whether the birds were conveyed in a hamper. Next day, however, the six ducks turned up at Innerwick, having traversed the three intervening miles of rough and hilly countryside. How did they find their way all that distance apart?

MORNING, JOHNSON. I LEARNED TODAY THAT WIDOW JONES HAD RECEIVED HER HUSBAND'S INSURANCE MONEY, SO I HURRIED OUT HERE TO GIVE HER SOME ADVICE. I SUPPOSE YOU CAME OUT TO SELL HER SOME OF YOUR WILD CAT INVESTMENTS.

THAT'S MY BUSINESS, SIR!

YES, BUT IT'S A MIGHTY POOR BUSINESS EXCEPT FOR THE HYENAS THAT ARE IN IT!!!

STOMACH PAINS— COULDN'T SLEEP

Tried All Sorts of Medicine and Health Resorts

He never got any relief until he used Nerv-Worth and then he felt better before he had finished the first bottle. One has only to stop Police Officer Vitte, of Morgantown, W. Va., and ask him if he knows of anything to give relief in a bad case of stomach trouble, so bad that a man couldn't sleep. Immediately he will say: "That's me—I couldn't until I got Nerv-Worth. I had tried all sorts of medicines, made three trips to Hot Springs, and one to Florida. My stomach pained me constantly. Nothing I ate agreed with me. Now I eat anything I want and sleep like a log." Could anyone ask for any stronger proof. All we can say is try a bottle and see for yourself what it will do for you. The druggist where you buy it is authorized to give your money back if you are not satisfied with the results of the first bottle. You can buy Nerv-Worth at any first class drug store for one dollar a bottle. It is always on sale in this city at the Stewart Drug Store. Get a bottle to-day if you have any kind of stomach or bowel trouble or are nervous and can't sleep and see what it will do for you.

VERMIN DESTROYERS

We are showing a lot of them—powders, sprays and the like, but every one a sure killer for the vermin for which it is intended. We have some pertinent advice for you along these lines, if you'll ask us.

Gossip For Tonight's Tea Table

Mrs. M. J. McGannon, of DuBois, underwent a slight surgical operation at the Clearfield Hospital yesterday. She is recovering nicely.

Born to Mr. and Mrs. Ray Bellas at the Clearfield Hospital on Tuesday morning last a 12 pound girl baby.

Mrs. Paul Allen, of Harrisburg, who has been visiting Clearfield relatives the past two weeks, returned to her home today.

Mrs. Minnie Brown, of Cherry who underwent a serious surgical operation at the Clearfield Hospital last week, is convalescing most satisfactorily at this time.

Mrs. C. J. Strausbaugh has returned after spending ten weeks with her son Fred in Wooster, Ohio.

Mr. and Mrs. Elbert O. Harshorne and daughters Marie and Marjorie, just returned to their home in Cleveland, Ohio, after spending a few days with Mr. and Mrs. Milo Lawhead.

Mr. and Mrs. Harry J. Sunderland and little daughter, Betty Jane, of Chicago, Ill., are spending their vacation with his parents, Mr. and Mrs. J. E. Sunderland on Martin street.

Thomas Tootle and Mrs. Charles Tootle and son Leslie, of Akron, O., are visiting Mr. Tootle's daughter, Mrs. Oliver Tibbins of 482 Ninth St.

Miss Alice Hill, of Clearfield, who is the guest of Miss M. Caroline Weiss was the guest of honor at a luncheon given at the Harrisburg Country Club yesterday by Mrs. Anne W. Mc Lain. Other guests were Mrs. George Preston Mains, Miss Bertha Minister, Mrs. J. Austin Brandt, Mrs. Anne W. McLain, Miss Helen Wallace, Miss Weiss, Mrs. John H. Weiss and Mrs. Robert H. Irons.—Harrisburg Evening News.

Mrs. Wm. Beish and Mrs. Guy Shaw visited Mrs. A. G. Peters of Woodland, yesterday and enjoyed one of Mrs. Peter's famous chicken dinners.

Didn't Enjoy It.

Young Harley was home for a few days from a cruise with the merchant marine. "Well," said the man from the home town gently, "how have you been enjoying maritime life?" "I haven't been enjoying it at all, sir," answered the youngster, blushing. "She broke the engagement."—Pioneer Enterprise.

Serves Time for Dog

Sport bit a little girl in Hoboken, N. J. He was taken to the pound for examination, but Charles Strick prevailed on authorities to let him "do time" for his pet. Then he secured a two-hour parole to visit the dog.

PROGRESSIVE IS WINNER FOR SENATE IN NEBRASKA

Omaha, Neb., July 19.—The apparent victor of R. N. Howell in the race for the Republican nomination for United States Senator indicates a sweep of yesterday's Republican primaries by Progressives. Mr. Howell, who made his campaign as a forward looking Republican, with a platform of progressive principles was 3 times elected Republican National committeeman from this State in statewide primaries.

He is opposed to the ship subsidy bill, sponsored by President Harding and favors a Government merchant marine and a farm bloc in Congress.

His chief opponent, Representative Jeffers, regarded as a conservative called attention in his campaign advertisements to praise given him by Representative Mondell, the Republican floor leader, saying he had been "a true, consistent and earnest worker" in the Republican party.

PENN STATE MAKES FINE REPUTATION

State College, Pa., July 20.—(U. P.) An indication that students entering Pennsylvania State College from vocational high schools do work as good or better than students prepared by an academic course was given here today when Professor C. Everett Myers, of the School of Agriculture, announced the result of a study made of college grades in three classes. A report of the research of Professor Myers states that the vocational high school students, during the period studied, have done college work that is on the average about one per cent higher than the general average for the subjects in which they are enrolled. Only in modern language were the vocational school men and women appreciably less well prepared than the others.

An Extremist.

"Mrs. Exe is a great stickler for form and ceremony, isn't she?" "Should say so. Why, that woman would insist on dressing up to entertain an idea."—Boston Transcript.

Stand by the Truth.

Much less courage is needed to bluster out a defiance before our enemies than is needed to simply state the truth as we see it, and quietly stand by it. After all, quiet steadfastness can always be trusted to carry conviction.

PENNSY DETECTIVE SHOT FROM BRUSH

Monongahela, Pa., July 20.—Three Pennsylvania Railroad detectives and a constable were shot from ambush early today while returning on a gasoline motor speeder from Cokeburg. Detective Harry Lauderbach was shot in the forehead, arm, chest and back. He was taken to a hospital here and his condition is said to be critical. The four men were detailed to patrol the Ellsworth branch of the Pennsylvania Railroad following an attempt Monday night to blow up a bridge at Reed's Mills. While passing thru Bentleyville-Ellsworth borough line on the speeder men concealed in the bushes opened fire. Lauderbach was struck by rifle balls while detectives Elmer Libler, George Thomas and constable Martin Hannigan received slight wounds in the body.

Bad Risk in Windows.

Nearly every business contributes its share of specialized knowledge to the common fund. It will strike many persons as a curious piece of information that plate-glass insurance companies class windows with black lettering on them as "extra hazardous" risks. The explanation given is that a black surface absorbs the sun's rays. By this means, it is stated, an unequal expansion is produced throughout the plate; and under the influence of a sudden gust of cold or any other quick change of temperature a strain is developed which may break the glass.

Spanish Doctors Poorly Paid.

Physicians in Spain are by means well paid, and they are expected to attend the poorest without any charge.
